A VI Sem	F47	Paper – II Social problems in India	<ul style="list-style-type: none"> <li>• To make the students to understand the social problems and remedies for those social problems</li> <li>• Students will understand the causes and remedial measures of Prostitution and how to fight against Terrorism and to develop National Integration.</li> <li>• In the nutshell, learners will acquaint with creating healthy society.</li> </ul>

## DEPARTMENT OF STATISTICS

<b>Programme Specific Outcome</b>	Students after the successful completion of the statistics programme are enabled with the knowledge of statistical methods of collection of data and its presentation. They acquire the skills of statistical analysis using average measure of dispersion, correlation, regression, theoretical distribution, statistical inference etc and the application of statistical methods in various fields.
-----------------------------------	--

### COURSE OUTCOME

Sl.No	Course	Course Code	Title of the Course	Outcome
1	B.Com.III Sem	C53	Business Statistics	Introduces students to Business Statistics. It imparts Knowledge regarding Preliminary Statistical Methods used in Collection, Presentation and data analysis useful in Business Study.
2	B.Com.IV Sem	D53	Business Statistics	Students acquire knowledge regarding advanced methods of data analysis, which can be used in forecasting, Market analysis, studying the relationships among variables and obtaining a trustworthy sample.
3	B.Com.III Sem	C45	Commercial Arithmetic	Equips the beneficiaries with the aptitude skills useful to face any competitive exams and provides an aid to understand mathematical aspects of any subject.
4	B.Com.IV Sem	D53	Commercial Arithmetic	* Imparts an insight of the various aspects in a business like partnership, taxes, Insolvency, Average Due date of payment, Shares and stocks and adds value to their learning. * Prepares them to face competitive exams.

5	B.A.I Sem	A65	Applied Statistics	Introduces the students to the world of statistics beginning by Basics of Statistics and its simple methods
6	B.A.II Sem	B65	Applied Statistics	It imparts knowledge about Statistical tools useful in Economics, Commerce or in any field
7	B.A.III Sem	C65	Applied Statistics	Creates awareness regarding the theoretical models of the distributions, both discrete and continuous which in turn can be used to adjudge the distribution to which practical data belongs to.
8	B.A.IV Sem	D65	Applied Statistics	Equips the students with the knowledge of Statistical Inference i.e. Testing of Hypothesis for large Samples and Small samples.
9	B.A.V. Sem Paper-I	E65	Sampling Theory and Industrial Statistics	Imparts Knowledge regarding various Sampling Methods and Checking the quality of the process and Products using Statistical Quality Control.
10	B.A.V. Sem Paper-II	E65	Demography and Life tables	Imparts knowledge to study Population structure through Demography. Also creates awareness on various Statistical organizations like NSSO, CSO and other operating government and Non-Government organizations.
11	B.A.VI Sem Paper-I	F65	Operations Research	Trains students to take optimal decisions in case of uncertainty in Linear Programming Problems, Transportation Problems, Assignment Problems etc..
12	B.A.VI Sem Paper-II	F-65	Analysis of Variance and Designs of Experiments.	Trains Students in Designing Experiments and Analysis of data.

## Department of Computer Science

<b>Programme Specific Outcome</b>	<p>Design and develop applications to analyse and solve all computer science related problems. Integrate and apply efficiently the contemporary IT tools to all computer applications. Solve and work with a professional context pertaining to ethics, social, cultural and cyber regulations. Create and design innovative methodologies to solve complex problems for the betterment of the society. Utilize the computing knowledge efficiently in projects with concern for societal environmental and cultural aspects.</p> <p>It creates a learning environment to transform the students with strong fundamentals in computer science, analytics, programming and problem solving. It provides exposure to students to latest tools &amp; technologies in area of computer science. There are brilliant job outlooks for Computer Science graduates in the recent scenario. Computer Science graduates are competent in academic, research, industry, government, private and business organizations with the acquired programming skills. The software and IT companies are the major employers of Computer Science graduates. Providing effectual and competent real time solutions using acquired acquaintance in various domains.</p>
